

Judith Hull

Judith Hull is the lead of the PERRL Working Group -- the Pilot Emission Removals, Reductions and Learnings Initiative.

She is a Senior Economist with Policy and Communications at Environment Canada. In addition to her work with PERRL, she is working on other special projects including the Greenhouse Gas Emission Reduction Trading Pilot (GERT), Credit for Early Action, Baseline Protection, sections on Economic Instruments of the Canadian Environmental Protection Act (CEPA), Ozone Annex Trading, and Electric Power Generation Multiple Emission Reduction Strategy.

Judith has been a university professor for most of her career. She has a BA (Economics) from UBC, an MA (Economics) McGill, and has completed all but her dissertation for a PhD (Economics). She started with Environment Canada in 1992.
