

# Mount Assiniboine Provincial Park

Trail Conditions Report  
Updated: **July 14, 2018**

Check out the [webcam at Mount Assiniboine Lodge](#).

Mount Assiniboine Provincial Park is a UNESCO world heritage site that is world renowned for its magnificent beauty and numerous hiking opportunities. No roads penetrate this unspoiled wilderness, and trails provide the only land access. Camping, hiking, mountain climbing and viewing the spectacular mountain scenery are the main activities here, as well as fishing, horseback riding, and ski touring.

### Trail Difficulty Definitions:

The ratings are determined based on the length of the trail section, change in elevation and trail type for the average Park Visitor.

### Trail Difficulty Rating:

E - Easy; M - Moderate; D – Difficult; S - Strenuous

**Elevations** shown are estimated for the trail section and reflect the maximum gain or loss.

**Traveling beyond the maintained trail is referred to as route finding which requires special equipment, skills, ability and knowledge. Please note all distances are measured from Mount Assiniboine Provincial Park boundaries unless otherwise stated.**

Weather in Mount Assiniboine Provincial Park can change quickly and all visitors to the park should come prepared: intense storms with hail, snow, high winds, and freezing temperatures are common throughout the summer months.

Access to the Hind Hut and other climbing routes is difficult; please don't attempt to travel on this type of terrain without adequate mountaineering knowledge and equipment. There have been numerous accidents and rescues in the past involving inexperienced and ill-equipped persons in technical terrain.

## ACCESS TRAILS

### Mitchell River Trail to Cerulean Lake

Mount Assiniboine park is a user maintained park. Garbage removal service is not available. Please help by packing out all your garbage and any garbage left behind by others. If you utilize the shelters, clean the facilities prior to your departure. Please use the outhouses and food storage bins provided.

Trail	Estimated Distance One-way (km)	Estimated Elevation Gained (m)	Trail Difficulty	Trail Information	Trail Condition
From an old landing beyond the Baymag Mine the trail follows the Mitchell River to the guide outfitter cabin, then continues on to Wedgwood Lake and then carries on to Cerulean Lake.	14 km	700 m	Difficult	Fording the Mitchell River is required. The trail is primarily used by horse users. The trail is not maintained, is quite overgrown and may be difficult to follow in some places. Route finding skills are required. During times of high water this trail may be impassable.	Open Wind felled trees may be encountered.

### Simpson River Access to Core Area

Mount Assiniboine park is a user maintained park. Garbage removal service is not available. Please help by packing out all your garbage and any garbage left behind by others. If you utilize the shelters, clean the facilities prior to your departure. Please use the outhouses, grey water pits and food storage bins provided.

Trail	Estimated Distance One-way (km)	Estimated Elevation Gained (m)	Trail Difficulty	Trail Information	Trail Condition
Simpson River trail head to Surprise Creek Cabin	10 km	90 m	Easy	Through Kootenay National Park there is the hazard of falling trees and there may be trees down on the trail. The trail is well defined and easy to follow the whole way.  The Simpson River suspension bridge located near the Surprise Creek cabin <b>has been permanently dismantled</b> due to safety concerns caused by flood damage in the Spring of 2015.	<b>Trail will remain closed until damage from the 2017 wildfire season can be assessed. Assessment is scheduled to occur in 2018.</b>
Surprise Creek Cabin to Rock Lake Campground	9 km	610 m	Moderate	The trail leaves the cabin area, follows Surprise Creek and is uphill the whole way to Rock Lake. The trail is well defined and easy to follow the whole way.	<b>Trail will remain closed until damage from the 2017 wildfire season can be assessed. Assessment is scheduled to occur in 2018.</b>
Rock Lake Campground to the Core Area	11.5 km	150 m	Moderate	This undulating trail is well defined and easy to follow the whole way.	<b>Trail between Rock Lake and Ferro Pass will remain closed until damage from the 2017 wildfire season can be assessed. Assessment is scheduled to occur in 2018.</b>

### Simpson River to Porcupine Campground

Mount Assiniboine park is a user maintained park. Garbage removal service is not available. Please help by packing out all your garbage and any garbage left behind by others. Please use the outhouses, grey water pits, and food storage bins provided.

Trail	Estimated Distance One-way (km)	Estimated Elevation Gained (m)	Trail Difficulty	Route Information	Trail Condition
The Route to Porcupine Campground follows the Simpson River. The trail starts on the west side of the suspension bridge 2km from the Mount Assiniboine Park Boundary.	14 km	600 m	Moderate	This area was burned in 2017. Expect significant numbers of wind felled trees & unbridged creek crossings. Users can expect to encounter few signs of the old trails along this route.	<b>Access from Lower Simpson closed until assessment / repairs take place</b>

### Assiniboine Pass to Mount Assiniboine Lodge

Mount Assiniboine park is a user maintained park. Garbage removal service is not available. Please help by packing out all your garbage and any garbage left behind by others. Please use the outhouses, grey water pits and food storage bins provided.
