

Fun, Interactive, Interesting and FREE Interpretation programs at Porteau Cove Park!

Wednesday July 1st CANADA DAY

Thursday July 2nd

2pm—Sea Side Scientists

Come and have your eyes opened to the amazing life hidden in the rocks at low tide! Put on your boots and your scientist hat and meet at the day use parking lot!

7:30pm—Jerry's Rangers Program

 Water is super important to all living things on our planet, so we need to share it and not use it all up! Come meet at the Amphitheatre to find out how, and earn your "Recycler" sticker! New Jerry's Rangers are welcome!

Friday July 3rd

2pm—Predator and Prey and Pyramids

Every animal has a role to play, and while they all eat, it's only matter of time before they become someone else's lunch! Come learn about the importance of food chains, the key players in a food chain on the West Coast, and what happens when something bad is added to the mixture. Have a chance to become these players, and find out who will eat who!

7:30 pm—Jerry's Rangers Program

 That disposable water bottle sure is convenient for a lunch at the beach, or for a day at school. Let's compare the amount of time it saved you to the amount of time it will hang around after you've used it! Bring three pieces of garbage from your campsite, and a parent, to the field by the walk-in campsites to find out just how much time matters! Earn your "Careful Camper" sticker

Saturday July 4th

2pm—Jerry's Rangers Program

Humans can talk, dance, sing, act, and sign to make others understand us. How do animals communicate with other animals? Let's find out how animals can send messages to each other and practise our animal conversations together! Parents can join in too, so bring one with you to the field near the walk-in campsites, and meet the other animals in Porteau Cove to earn your "Nature Nut" sticker! New Jerry's Rangers are welcome!

7:30pm—The Past, The Fjord and The Future

How sound is Howe Sound? With glaciers, volcanoes and mining in it's past, Howe Sound is a historical treasure. Find out about the creation of North America's southern-most fjord, and how we can help in the battle to restore Howe Sound's pristine beauty. Meet at the amphitheatre at 7:30pm!

Sunday July 5th

2pm—The Plight of the Littlest Plant

Ever wondered how the forests of the West Coast emerged from lifeless rock? Meet with your walking shoes at the field near the Walk -In Sites to discover how!

7:30pm – Super Swimmers

Here at Porteau Cove we often get visits from some friendly, curious Harbour Seals. They want to learn about us, and we can learn about them too! Come fulfil your own curiosity tonight at 7:30 at the amphitheatre.
