

Learn to Fish in BC Parks

The Freshwater Fisheries Society of BC has a fun, hands on, **Learn to Fish Program** that will teach basic angling skills to youth under 16 years old in Provincial Parks this summer.

Each session will include **Learn-to-Fish** tips, fish biology and ID, casting practice and real fishing! It's free and all equipment is provided!

Watch for Learn to Fish programs in these Provincial Parks!

All programs are at 10 am and 2 pm
