B. PROVINCIAL FREQUENCIES (Weighted)..... 63

C. OUTDOOR RECREATION INTEREST CROSS-TABULATIONS (Weighted)..... 113

INTRODUCTION

BC STATS, on behalf of the Ministry of Environment, Protected Areas Division, undertook a telephone survey of 2,000 members of the public of British Columbia during November 2005. The objectives of this research were to:

- Measure the support for and image of the BC Parks system;
- Understand the opinions of visitors and non-visitors to the park system and the level of interest in outdoor recreation activities; and
- Measure the support for day-use parking fees.

The results from the survey were analysed, and presented in a separate report entitled “BC Parks Household Survey 2005: Provincial Report” (January 2006, BC STATS). The questionnaire and a discussion of the survey methodology can be found in that report.

This document presents the data tables from the survey.

- A. Unweighted regional cross-tabulation tables (with provincial totals)
- B. Weighted¹ provincial frequency tables
- C. Weighted cross-tabulation tables based on
 - whether or not the respondent had visited a BC Provincial Park in the previous 12 months², and
 - if the respondent stated that they agreed or strongly agreed with the statement “Compared with other interests, outdoor recreation is important to me.”³ Those who responded this way are referred to as “outdoor recreation enthusiasts”.

¹ Wighting based on regional distribution of the sample

² Question 2.

³ Question 20.

This page left blank.

A: REGIONAL CROSS-TABULATION (Unweighted)
