EDITION 2

HABITAT MAP UNITS  
(VEGETATION LANDSCAPES AND SOILS ASSOCIATIONS)  
OF THE RISKE CREEK STUDY AREA

Province of British Columbia  
Ministry of Environment, Lands and Parks,  
Wildlife Branch, Habitat Inventory Section  
Victoria, British Columbia  
E.C. Lea and M.A. Fenger 1992

**EXPLANATORY NOTES**  
This map is a habitat map of the Riske Creek study area. It is based on a topographic map of the area, and it shows the distribution of various habitat map units. The map units are defined by their vegetation, soil, and topographic characteristics. The map is divided into a grid of 100m by 100m cells. The map units are labeled with codes such as LP1 through LP100. The map also shows stream networks, roads, and other features. The map is titled 'SPRINGHOUSE BRITISH COLUMBIA' and includes a scale of 1:50,000.
