

# Long-Term Objectives Map - South Taseko\_dwl-77

## Spatial Distribution of Stand Structure Habitat Classes

January 17, 2006

### LEGEND

- |                                                                                               |                                                                    |                             |                        |
|-----------------------------------------------------------------------------------------------|--------------------------------------------------------------------|-----------------------------|------------------------|
| High Habitat Stand Structure                                                                  | Long Term Open Range (Grassland Benchmark from Grassland Strategy) | Habitat Management Zones    | Ridge                  |
| Moderate Habitat Stand Structure                                                              | Grasslands Currently Tree-Encroached (air photo interpretation)    | Woodlots                    | Park or Protected Area |
| Low Habitat Stand Structure                                                                   | Mule Deer Winter Range Boundary                                    | Private Land                |                        |
| Non-Productive (Urban, Wetland, Swamp, Rock, Clay Bank, Clearing, Non-Productive Brush, Rock) | Biogeoclimatic Sub-Zones                                           | Low Habitat Type Limitation |                        |
|                                                                                               |                                                                    | Topographic Buffer          |                        |
