

Management Strategy for Mule Deer Winter Ranges in the Cariboo - Chilcotin: Part Two

# Long-Term Objectives Map - Upper Quesnel\_dqu-80

## Spatial Distribution of Stand Structure Habitat Classes

November 29, 2005

### LEGEND

- |                                                                                               |                                                                    |                          |
|-----------------------------------------------------------------------------------------------|--------------------------------------------------------------------|--------------------------|
| High Habitat Stand Structure                                                                  | Long Term Open Range (Grassland Benchmark from Grassland Strategy) | Habitat Management Zones |
| Moderate Habitat Stand Structure                                                              | Grasslands Currently Tree-Encroached (air photo interpretation)    | Woodlots                 |
| Low Habitat Stand Structure                                                                   | Mule Deer Winter Range Boundary                                    | Private Land             |
| Non-Productive (Urban, Wetland, Swamp, Rock, Clay Bank, Clearing, Non-Productive Brush, Rock) | Biogeoclimatic Sub-Zones                                           | Topographic Buffer       |
|                                                                                               |                                                                    | Ridge                    |

Signed this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_  
Chris Trumpy, Deputy Minister, Ministry of Environment
