

Updated BEC classification for the Lillooet Forest District.

PROJECT META-DATA

A. PROJECT

Citation:

MOF Kamloops. 2003. A updated Classification of BEC zones for the Lillooet Forest District.

Consultant/Department:

i) Creation of ARC data

Silvatech Consulting Ltd.
670 - 11th Street NE (PO Box 1030)
Salmon Arm, BC V1E 4P2

Shamaya Consulting
3632 Railway Avenue
Smithers, BC V0J 2N0

Contact: Graham MacGregor

Contact: Colleen Jones

iii) Maintenance of data:

Maintenance of data:
Ministry of Forests. Kamloops Region
Contact: Dennis Loyd

Compilation Scale: 1 : 20 000

Period of Content:

Data Type:	BEC Classification
Data Content:	Updated BEC classification
Content Date:	DEC 2003 (Date Received)

Period of Compilation:

Data Type:	BEC Classification
Data Content:	Updated BEC classification
Compilation Date:	DEC 2003 (Date Received)

B. BASE MAP

Base Map Type: BEC classification for Lillooet District
Compiling Agency: MOF Kamloops Region
Year(s) of Compilation: 2001-2003
Projection: UTM 10
Ellipsoid: GRS80
Compilation Method:
Datum: NAD83

C. MAPPING CONCEPTS

Mapping Entities:

Mapping Entities: BEC label was main entity used in PEM process.

Map Entities: See PEM Knowledge Base or Knowledge Base evaluation

Entity Relationships: See PEM Knowledge Base or Knowledge Base evaluation

D. INVENTORY PROCEDURES

Data Capture

Delineation Method and Criteria: MOF BEC classification standards (Coverage sanctioned by MOF)

Sampling Design: MOF BEC classification standards (Coverage sanctioned by MOF)

Sampling Methods: MOF BEC classification standards (Coverage sanctioned by MOF)

Sampling Frequency: MOF BEC classification standards (Coverage sanctioned by MOF)

Attribution: : MOF BEC classification standards

D. INVENTORY PROCEDURES (continued)

Quality Assurance

Validation Method: Not Applicable (Coverage sanctioned by MOF)

Validation Criteria: Not Applicable (Coverage sanctioned by MOF)

Validation Design: Not Applicable (Coverage sanctioned by MOF)

Validation Results: Not Applicable (Coverage sanctioned by MOF)

Quality Control

Correlation Procedures:

i) Taxonomy: Not Applicable (Coverage sanctioned by MOF)

ii) Attributes: Not Applicable (Coverage sanctioned by MOF)

Map Production: Not Applicable (Coverage sanctioned by MOF)

Edge Matching: Not Applicable (Coverage sanctioned by MOF)

Line Edit: Not Applicable (Coverage sanctioned by MOF)

Symbol Edit: Not Applicable (Coverage sanctioned by MOF)

Attribute Edit: Not Applicable (Coverage sanctioned by MOF)

Legend Edit: Not Applicable (Coverage sanctioned by MOF)

E. INPUT MAP COMPILATION QUALITY CONTROL

Edge Matching: Not Applicable (Coverage sanctioned by MOF)

Edge Matching Error: Not Applicable (Coverage sanctioned by MOF)

Attribute/Label Matching: Not Applicable (Coverage sanctioned by MOF)

Raster Size:

Spatial Reconciliation: When coverage was received from regional office general positional accuracy was assessed in BEC in relation to water or ice features. Actual was difficult to assess although BEC lines fit topographic features and gains in elevation.
