PELICAN ALERT

American White Pelicans are an endangered species and protected under the B.C. *Wildlife Act*.

B.C.'s only nesting colony (350 nesting pairs) is located in the Cariboo-Chilcotin. Pelicans return to the region each April/May to breed. After the young have fledged in August, they migrate south to overwinter in the Western U.S. and Mexico.

Pelicans forage for fish on lakes throughout the region and travel as far as 165 km from the nesting colony. They do not dive but feed from the surface in shallow water. When breeding pelicans are disturbed while foraging, their feeding and timely return to the nests is disrupted. This leaves the young without food and may reduce survival.

Please do not approach pelicans.

To report pelican sightings, please contact the Fish and Wildlife Regional Office in Williams Lake.

ICE FISHING HUTS: WARNING!

Failure to remove ice fishing huts from lakes before spring breakup is an offence under the Environmental Management Act.

WARNING

Due to aeration projects, **DANGEROUS THIN ICE & OPEN WATER** may exist on Dewar, Higgins, Irish, Simon and Skulow Lakes.

REGION 5 - Regional Regulations

GENERAL RESTRICTIONS

Spring closure: No fishing in any stream in Fraser River watershed of Region 5 (including the Thompson River watershed) from April 1 to June 30, EXCEPT the mainstem of the Fraser River & other streams listed in the tables.

Single barbless hook: must be used in all streams of Region 5, all year.

Size limit: There is no minimum size in lakes (see tables for exceptions).

Steelhead fishing: Your basic licence must be validated with a **Steelhead Conservation Surcharge Stamp** if you intend to fish for steelhead anywhere in B.C. In addition, a Steelhead Stamp is mandatory when fishing most **Classified Waters** regardless of the species being angled for. Please see page 7 in the Provincial Regulations for details.

DEAN RIVER CLASSIFIED WATERS

All anglers are required to buy a Classified Waters Licence to fish the classified portions of the Dean River (see Table for specific areas and dates). There are no limits on the number of days which a Canadian resident may fish the classified sections of the Dean River.

A Non-Resident Alien (see definition, page 13 in the Provincial Regulations) is allowed only one Classified Waters Licence for the Dean River, and may only fish one classified section of the Dean River (see map page below) for a maximum of 8 consecutive days per year regardless of whether guided or unguided. A non-guided Non-Resident Alien wishing to fish the Class I - Main Section of the Dean River, from Crag Creek to signs 500 m above the canyon, **must enter an annual limited entry draw held in mid-March.** For an application, please visit our website at www.env.gov.bc.ca/fw/fish/licences/#DeanRiverDraw or contact us at:

REGIONAL DAILY CATCH QUOTAS

Whitefish: 15 (all species combined)

Burbot: 5

White Sturgeon:

CLOSED TO ALL FISHING in the Fraser River Watershed upstream of Williams Lake River.

CATCH AND RELEASE in the Fraser River Watershed downstream of and including Williams Lake River

POSSESSION QUOTAS

Possession quotas = 2 daily quotas (see tables for exceptions)

DAILY & ANNUAL CATCH QUOTAS FOR SALMON

Please refer to the NOTICE on page 4 for Salmon Regulations.

NOTICE TO ANGLERS

STEELHEAD MANAGEMENT CHANGES
In response to declining abundance of Fraser Basin steelhead, steelhead fisheries within the Chilcotin River Watershed will be closed for 2010/2011.

THE FOLLOWING WATERS ARE CLOSED TO ALL FISHING:

Chilcotin River downstream of Chilko River from October 1 through June 10.
Sport fishing openings will be announced in-season, if scientific information suggests that abundance is adequate to support a fishery. This management approach is in response to depressed steelhead abundance. The short term strategy is to meet conservation objectives by minimizing the incidental mortalities associated with sports and commercial fisheries.
