

APPLICATION TO COLLECT FISH FOR SCIENTIFIC PURPOSE

This application is for use by individuals and organizations wishing to collect freshwater fish in British Columbia inland waters.

Please complete all sections of this form. Type or print legibly. Attach additional sheets if needed.

1. APPLICANT INFORMATION:

Legal Last Name: \_\_\_\_\_ Legal First Name: \_\_\_\_\_ Legal Middle Initial: \_\_\_\_\_

Legal Company Name (if applicable): \_\_\_\_\_

Street or PO Box: \_\_\_\_\_

City or Town: \_\_\_\_\_ Postal Code: \_\_\_\_\_ E-mail: \_\_\_\_\_

Phone (day): \_\_\_\_\_ Date of Birth (MM/DD/YYYY): \_\_\_\_\_

Website (optional): \_\_\_\_\_

Additional persons conducting work under this permit\*:

\_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_
\_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_
\_\_\_\_\_, \_\_\_\_\_, \_\_\_\_\_

\*Refer to item 9, Appendix "A". Any workers not listed must be supervised by the proponent or one of the additional persons named above.

2. SAMPLING PROGRAM:

Please ensure that you have read and understand the Application Guidelines provided, and the Reporting Guidelines available at "http://www.env.gov.bc.ca/pasb/reports/fish/"

1. Will collection activities involve any tagging, marking, or lethal sampling? If yes, complete 2.6 Lethal Sampling Program Description. Yes [ ] No [ ]

2. Will collection activities involve angling in contravention of existing sport fishing regulations? (see Appendix A) Specify. Yes [ ] No [ ]

\_\_\_\_\_

3. Will collection activities involve any variances to the listed Permit Conditions? (see Appendix A) Specify. Yes [ ] No [ ]

\_\_\_\_\_

4. Will collection activities involve any Species at Risk? If yes, list affected species. \*Refer to Appendix B Table 1: Species at Risk Yes [ ] No [ ]

**APPLICATION TO COLLECT FISH  
FOR SCIENTIFIC PURPOSE**

This application is for use by individuals and organizations wishing to collect freshwater fish in British Columbia inland waters.

Please complete all sections of this form. Type or print legibly. Attach additional sheets if needed.

➤ **2.1 SAMPLING PERIOD**

Start Date (DD/MM/YYYY): \_\_\_\_/\_\_\_\_/\_\_\_\_

End Date (DD/MM/YYYY): \_\_\_\_/\_\_\_\_/\_\_\_\_

➤ **2.2 SAMPLING LOCATION(S)** (Refer to guidelines)

(For watershed codes, see [HabitatWizard \(http://www.env.gov.bc.ca/habwiz/\)](http://www.env.gov.bc.ca/habwiz/) or the [Fisheries Information Data Queries \(http://www.env.gov.bc.ca/fish/fidq/\)](http://www.env.gov.bc.ca/fish/fidq/).)

ACTIVITY	MOE REGION	WATERBODY	WATERSHED CODE

➤ **2.3 SAMPLING OBJECTIVES** (see application guidelines) - please describe project and / or project area – **must include project rationale, methodologies.** You are required to obtain separate permits for additional activities not listed.

(attach sheet if necessary) \_\_\_\_\_

### APPLICATION TO COLLECT FISH FOR SCIENTIFIC PURPOSE

This application is for use by individuals and organizations wishing to collect freshwater fish in British Columbia inland waters.

Please complete all sections of this form. Type or print legibly. Attach additional sheets if needed.

#### ➤ 2.4 SAMPLING TECHNIQUES

Circle sampling technique codes that you will be using.

Sampling Technique	Code
Minnow trapping	MT
Angling	AG
Seining	SN
Dead capture	DC
Trap net	TN
Dip netting	DN
Electrofishing	EF
Gill netting (complete Section 2.6)	GN
All of the above	ALL

#### ➤ 2.5 SPECIES TO BE SAMPLED

Is this sampling program targeting specific species?

Yes  **If yes, then please identify all target species.**

No  **If no, please indicate potential species encountered.**

Use species codes listed in "Appendix B", Table 2: Species Names and Codes.

*No permits will be issued for SARA listed species or for salmon other than Kokanee: see "Appendix A", Item 1.*

Link to the SARA permit application forms:

[http://www.dfo-mpo.gc.ca/species-especes/permits/sarapermits\\_e.asp](http://www.dfo-mpo.gc.ca/species-especes/permits/sarapermits_e.asp)

COMMON NAME	SCIENTIFIC NAME	CODE

#### ➤ 2.6 LETHAL SAMPLING PROGRAM DESCRIPTION

Complete the following table only if you answered **yes** to **section 2.0: Question 1**

TARGET SPECIES	# OF FISH	SAMPLE WATERBODY/CODE

**3. FEE: \$25 per activity as noted below**

Method of Payment: Cheque/Money Order	<input type="checkbox"/> Payable to Minister of Finance
Credit Card (Visa/MasterCard)	<input type="checkbox"/> (attach credit card authorization sheet)
Cash/Debit	<input type="checkbox"/> at Service BC – Government Agent Only
<b>*CREDIT CARD DATA SHOULD NOT BE EMAILED</b>	<input type="checkbox"/> at FrontCounter BC office

The information required by this form and any documents you provide with it are collected under the authority of the *Freedom of Information and Protection of Privacy Act* to process your license/permit application under the *Wildlife Act*. This information will be used to verify your eligibility for the license/permit you are seeking and for other purposes related to the administration of the *Wildlife Act*. If you have any questions about the collection or use of this information, contact the Director of Wildlife.

**ACKNOWLEDGEMENT:**

By signing below, I acknowledge that the information I have provided is true and correct to the best of my knowledge and I am 19 years of age or older. In addition, I have read the Reporting Guidelines and fully understand the level of reporting detail that is expected of myself / my organization, and I ensure that all staff engaged in collection activities under this permit are qualified and trained for collection activities.

\_\_\_\_\_  
**Signature of Applicant**

\_\_\_\_\_  
**Date of Application**

It is an offence to knowingly make a false statement in order to obtain a permit/licence. Violations may result in prosecution under the *Wildlife Act* and/or refusal of future permit or licence requests. Any permit/licence obtained using false information is invalid.

**Incomplete applications may delay processing time for a permit. Resubmitted applications are processed in *resubmitted date order*. Please ensure your application *Regional boundaries, variance requests are determined from the Fishing Synopsis Regulations, along with your complete work plans.***

Please send completed application, fees and any supporting documents to the **Permit and Authorization Service Bureau** at one of the following:

**By Mail:** PO Box 9372 STN PROV GOVT, Victoria BC, V8W 9M3  
**By Courier:** 4<sup>th</sup> Floor, 2975 Jutland Road, Victoria BC, V8W 9M3  
**By Fax:** (250) 387-1814 or through any Service BC - Government Agent Office  
or through any FrontCounter BC Office

## Application Guidelines for Scientific Fish Collection Permits

Due to the wide variety of activities that take place under the authorization of this permit, the Ministry has provided the following guidelines to help applicants describe the details and scope that suit their particular sampling program. *For all activities, you are required to familiarize yourself with the provincial and region-specific conditions of your permit, listed in Appendix 'A' of the permit application.*

Questions regarding data report standards can be made to: [fishdatasub@gov.bc.ca](mailto:fishdatasub@gov.bc.ca).

	Activity	Sampling Program Description	Permit Limitations
<b>1.</b>	<b>Fish Salvage</b>	Regional Level - Indicate areas within a regional district such as GVRD - Include detailed project objectives	<b>Maximum 1 year</b>
<b>Example</b>	Fish collection associated with in-stream works etc.		
<b>2.</b>	<b>Forestry Stream Classification</b>	Using the TRIM scale, identify the 4 <sup>th</sup> or 5 <sup>th</sup> order stream - Include detailed project objectives	
<b>3.</b>	<b>Environmental Impact Assessment</b>	Project Level - Include detailed project objectives	
<b>Example</b>	Pre and / or post development project monitoring (industrial, linear etc.)	- indicate the project/proponent under which the fish collection activity will take place and the water bodies involved - Include detailed project objectives	
<b>4.</b>	<b>Inventory</b>	Project Level - indicate the project/proponent under which the fish collection activity will take place and the water bodies involved - Include detailed project objectives	<b>Maximum 1 year</b>
<b>Example</b>	(1) Species abundance and distribution  (2) Presence / Absence study		

<b>5.</b>	<b>Research</b> (fish collection as part of experimental procedure)	Project Level - indicate the project/proponent under which the fish collection activity will take place and the water bodies involved - Include detailed project objectives	
	<b>Example</b> Research to determine how fish populations respond to habitat manipulations		

<b>ACTIVITY</b>	<b>MOE REGION(S)</b>	<b>WATERBODY OR WATERSHED NAME</b>	<b>WATERSHED CODE</b>
<b>Fish Salvage</b>	Required	Indicate area within region (GVRD, Municipality, etc)	Required
<b>Forestry Stream Classification</b>	Required	TRIM scale 4 <sup>th</sup> order stream or larger	Required
<b>Environmental Impact Assessment</b>	Required	Required	Required
<b>Inventory</b>	Required	Required	Required
<b>Research</b>	Required	Required	Required

BRITISH  
COLUMBIA

## Appendix A: Fish Collection Permit Conditions

*Any Variation of the following terms and conditions will require explicit authorization by the appropriate regional Fish & Wildlife Section Head.*

### Provincial Conditions

1. This collecting permit is not valid
  - in national parks,
  - in provincial parks unless a Park Use Permit is also obtained,
  - in tidal waters,
  - for eulachon or for salmon\* other than kokanee, or
  - for collecting fish by angling unless the permit holder and crew members possess a valid angling licence.

This collecting permit is **only** valid for species listed as threatened, endangered or extirpated under the Species at Risk Act (SARA) **in conjunction with a permit issued under Section 73 of SARA from Fisheries and Oceans Canada.**

\*Contact the Department of Fisheries and Oceans for fish collecting permits for salmon, eulachon or SARA listed species (see Appendix B).

2. The permit holder (or the project supervisor) named on the application for a scientific collection permit will carry a copy of this permit while engaged in fish collecting and produce it upon request of a conservation officer, fisheries officer or constable.
3. Any specimens surplus to scientific requirements and any species not authorized for collection in this permit shall be immediately and carefully released at the point of capture.
4. Fish collected under authority of this permit shall not be used for food or any purpose other than the objectives set out in the approved application for a scientific collection permit. The permit holder shall not sell, barter, trade, or give away, or offer to sell, barter, trade or give away fish collected under authority of this permit. Dead fish shall be disposed of in a manner that will not constitute a health hazard, nuisance or a threat to wildlife.
5. No fish collected under authority of this permit shall be
  - transported alive unless authorized by this permit, or
  - transplanted unless separately authorized by the Federal/Provincial Fish Transplant Committee.
6. The permit holder shall, within 90 days of the expiry of this permit, submit a report of fish collection activities. Interim reports may also be required and shall be submitted as required by the permit issuer. All submissions must be filed electronically to: [http://www.env.gov.bc.ca/fish\\_data\\_sub/index.html](http://www.env.gov.bc.ca/fish_data_sub/index.html)  
Reporting specifications, information and templates are available from this website and outline the mandatory information requirements. Prior notification of submission or questions regarding data report standards can be made to: [fishdatasub@gov.bc.ca](mailto:fishdatasub@gov.bc.ca)
7. This collecting permit is subject to cancellation at any time and shall be surrendered to a conservation officer on demand or to the issuer upon written notice of its cancellation.
8. This permit is valid only for the activities approved on the application form and in accordance with any restrictions set out therein.
9. This permit is valid only for trained, qualified staff named in the Application. The permit holder will comply with all Worker's Compensation Board requirements and other regulatory requirements. Permit holders are responsible for ensuring staff members listed on the permit are properly certified for specific sampling methods or activities (e.g. electroshocking).

10. All sampling equipment that has been previously used outside of B.C. must be cleaned of mud and dirt and disinfected with 100mg/L chlorine bleach before using in any water course to prevent the spread of fish pathogens (e.g. Whirling disease) and / or invasive plant species. Any washed off dirt or mud must be disposed of in a manner such that it cannot enter a watercourse untreated.
11. No electrofishing is to take place in waters below five degrees C.
12. Electrofishing may not be conducted in the vicinity of spawning gravel, redds, or spawning fish, or around gravels which are capable of supporting eggs or developing embryos of any species of salmonid at a time of year when such eggs or embryos may be present.
13. Angling must only occur in accordance with the regulations specified in the current BC Freshwater Fishing Regulations Synopsis.

## **Region Specific Conditions**

### **West Coast Region**

- Within the boundaries of Management Units 1-1 through 1-13, there shall be no electrofishing in streams above 630 meters in elevation, in anadromous waters, or in lake tributaries from January 1 to June 30.
- All sampling gear follow Association of Professional Biologists' advisory practice bulletin #5. Practice Advisory – Didymo, see: <http://www.apbbc.bc.ca/files/Didymo.pdf>
- The permit holder must advise the West Coast Region of sampling activities 48 hrs prior to field operations. Please complete the following notification form: [http://www.env.gov.bc.ca/pasb/reports/fish/permit\\_notify1.html](http://www.env.gov.bc.ca/pasb/reports/fish/permit_notify1.html)

### **South Coast Region**

- The permit holder must notify Iain Lunn, MoE at [Iain.Lunn@gov.bc.ca](mailto:Iain.Lunn@gov.bc.ca) with the following information at least 24 hours prior to undertaking work:
  - approved SFC permit number
  - report number (where applicable)
  - company
  - contact
  - address
  - phone
  - fax
  - water body
  - watershed code
  - purpose of collection
  - start date
  - end date
- All streams sampled, for which a watershed code does not presently exist, will require a map showing the location of the stream and sampling location with the map scale identified at time of reporting.
- Electrofishing and minnow trapping can harm or kill non-target species of management concern such as the endangered Coastal Giant Salamander (within the Chilliwack River drainage system) and Pacific Water Shrew (within the lower Fraser River Valley). Any incidental captures (alive or dead) of any red- or blue-listed wildlife species must be reported to the Ministry of Environment, Lower Mainland Region. For further information on these species or to report incidental captures, please call Kym Welstead, Species at Risk Biologist, MOE, Surrey at (604) 582-5200 or by e-mail at [Kym.Welstead@gov.bc.ca](mailto:Kym.Welstead@gov.bc.ca).
- Please refer to the following website for the least risk in-stream work windows:  
[http://www.env.gov.bc.ca/wsd/water\\_rights/licence\\_application/section9/index.html](http://www.env.gov.bc.ca/wsd/water_rights/licence_application/section9/index.html)  
Where possible, collection should be conducted during the least risk work windows identified. The exception is seasonal or ephemeral streams where sampling may not be possible during the prescribed window due to flow conditions.
- The permit holder must refer to the following when sampling Salish Sucker, Nooksack Dace and Stickleback species.

Salish sucker sampling guidelines -

[http://www.zoology.ubc.ca/~schluter/stickleback/Salish\\_sucker/Guidelines%20for%20collection%20of%20Salish%20sucker.pdf](http://www.zoology.ubc.ca/~schluter/stickleback/Salish_sucker/Guidelines%20for%20collection%20of%20Salish%20sucker.pdf)

Nooksack dace sampling guidelines – [http://www.zoology.ubc.ca/~schluter/stickleback/Nooksack\\_dace/non-password%20protected%20files/Guidelines%20for%20the%20Collection%20of%20Nooksack%20Dace.pdf](http://www.zoology.ubc.ca/~schluter/stickleback/Nooksack_dace/non-password%20protected%20files/Guidelines%20for%20the%20Collection%20of%20Nooksack%20Dace.pdf)

Stickleback species pairs sampling guidelines -

[http://www.zoology.ubc.ca/~schluter/stickleback/stickleback\\_species\\_pairs/other%20stickleback%20files/Guidelines%20for%20the%20Collection%20and%20In%20Situ%20Scientific%20Study%20of%20Stickleback%20Species%20Pairs.pdf](http://www.zoology.ubc.ca/~schluter/stickleback/stickleback_species_pairs/other%20stickleback%20files/Guidelines%20for%20the%20Collection%20and%20In%20Situ%20Scientific%20Study%20of%20Stickleback%20Species%20Pairs.pdf)

### **Thompson/Okanagan Region**

- Please refer to information at: [http://www.env.gov.bc.ca/wsd/water\\_rights/licence\\_application/section9/index.html](http://www.env.gov.bc.ca/wsd/water_rights/licence_application/section9/index.html) for the appropriate instream work windows.

### **Kootenay/Boundary Region**

- No electrofishing will be permitted between September 15 and June 15 in streams containing bull trout.
- The permit holder must contact the local zone Conservation Officer Service prior to initiating the field collections.
- All burbot traps must have a section in the top or sidewall that has been secured by a length of untreated, 100% cotton twine no greater than No. 30 (i.e. 30 thread count) or 3 mm diameter. When twine deteriorates, this must produce a square opening with a minimum size of 20 cm x 20 cm. This is intended to ensure that if the trap is lost, the section secured by the twine will rot, allowing captive fish to escape, and preventing the trap from continuing to fish.

### **Cariboo Region**

- Cariboo Region requires seven days (7) written notice, complete with waterbody and watershed codes for the proposed areas prior to sampling in the Cariboo Region. Please submit written email notice to: [Mike.Ramsay@gov.bc.ca](mailto:Mike.Ramsay@gov.bc.ca) or fax to 250 398 4214.
- Until such time as the holder of this permit has discussed specific activities with the Regional Manager and obtains written permission, fish collection, fish sampling or fish salvage may not be undertaken within the boundaries of Management Units 5-04 or 5-05.

### **Skeena Region**

- For information related to Fish Collection Permit Activities in the Skeena Region, please contact Dean Peard at 250-847-7286 or [Dean.Peard@gov.bc.ca](mailto:Dean.Peard@gov.bc.ca).

### **Omineca Region**

- No electrofishing will be permitted between September 15 and June 15 in streams containing bull trout.
- Voucher specimens for all regionally significant red and blue-listed species (3 per species), with exception to SARA-listed white sturgeon (*Acipenser transmontanus*), must be submitted to the Regional Fish Information Specialist as per RISC standards.
- All sampling gear follow Association of Professional Biologist's advisory practice bulletin #5. Practice Advisory Didymo, see: <http://www.apbbc.bc.ca/files/Didymo.pdf>.
- When lethal sampling has occurred for the purposes of environmental effects monitoring or impact assessment, the permit holder shall, within 90 days of the expiry of this permit, submit a report that summarizes all raw data related to the lethal program. This would typically include location of catch, species, fish tissue metals analysis, fish tissue moisture content, fish length and fish weight, at minimum. Interim reports may also be required and shall be submitted as required by the permit issuer. All fish tissue analysis data related to the lethal program must be submitted ALONG with the standard sampling effort data submission template to

[http://www.env.gov.bc.ca/fish\\_data\\_sub/index.html](http://www.env.gov.bc.ca/fish_data_sub/index.html). Questions regarding submission requirements for lethal sampling may be directed to [Susanne.Williamson@gov.bc.ca](mailto:Susanne.Williamson@gov.bc.ca).

- Lethal fish sampling for metal analysis to environmental studies must have an approved sampling plan prior to any field work; discussion should be held with Environmental Impact Biologists: Bruce Carmichael 250-565-6455 and/or James Jacklin 250-565-7103.

### **Peace Region**

- The permit holder must advise Region 7B (Peace) of sampling activities 48 hrs prior to field operations. Please complete the following notification form:  
[http://www.env.gov.bc.ca/pasb/reports/fish/permit\\_notify7b.html](http://www.env.gov.bc.ca/pasb/reports/fish/permit_notify7b.html)
- Voucher specimens for all regionally significant red and blue-listed species (3 per species) must be submitted to the Regional Fish Information Specialists as per RISC standards.
- No electrofishing will be permitted between September 15 and June 15 in streams containing bull trout.
- Sampling only permitted in open water – ice free conditions.
- All sampling gear follow Association of Professional Biologists' advisory practice bulletin #5. Practice Advisory – Didymo, see: <http://www.apbbc.bc.ca/files/Didymo.pdf>
- Lethal fish sampling for metal analysis to environmental studies must have an approved sampling plan prior to any field work.; discussion should be held with Environmental Impact Biologists:  
Bruce Carmichael 250-565-6455 and/or James Jacklin 250 565-7103, and Voucher specimens, any deformed captures in the Pine River watershed, including Murray River and tributaries, must be submitted as per RISC standards to the above at:  
MOE, Environmental Protection Division, 3<sup>rd</sup> Floor – 1011 4<sup>th</sup> Avenue, Prince George, BC V2L 3H9.

BRITISH  
COLUMBIA

## Appendix B

### Table 1 - Species at Risk

The following are species at risk that have been listed by the Committee on the Status of Endangered Wildlife in Canada (COSEWIC) as either endangered, threatened or a species of special concern. Species also listed under the Species at Risk Act (SARA) are identified with an asterisk, and are subject to additional permitting requirements through the Federal Department of Fisheries and Oceans (DFO).

Common Name	Scientific Name
Benthic Paxton Lake Stickleback	* <i>Gasterosteus sp.</i>
Benthic Vananda Creek Stickleback	* <i>Gasterosteus sp.</i>
Limnetic Paxton Lake Stickleback	* <i>Gasterosteus sp.</i>
Limnetic Vananda Creek Stickleback	* <i>Gasterosteus sp.</i>
Nooksack Dace	* <i>Rhinichthys sp.</i>
Morrison Creek Lamprey	* <i>Lampetra richardsoni</i>
Vancouver Lamprey (Cowichan Lake Lamprey)	* <i>Lampetra macrostoma</i>
Cultus Pygmy Sculpin	* <i>Cottus sp.</i>
Shorthead Sculpin	* <i>Cottus confusus</i>
Hotwater Physa	* <i>Physella wrighti</i>
Limnetic Enos Lake Stickleback	<i>Gasterosteus sp.</i>
Benthic Enos Lake Stickleback	<i>Gasterosteus sp.</i>
Salish Sucker	<i>Catostomus sp.</i>
Speckled Dace	<i>Rhinichthys osculus</i>
Charlotte Unarmoured Stickleback	<i>Gasterosteus aculeatus</i>
Columbia Mottled Sculpin	<i>Cottus bairdi hubbsi</i>
Giant Stickleback	<i>Gasterosteus sp.</i>
Green Sturgeon	<i>Acipenser medirostris</i>
Umatilla Dace	<i>Rhinichthys umatilla</i>
White Sturgeon	<i>Acipenser transmontanus</i>

Applications for permits to specifically collect and retain listed species must be reviewed by the appropriate Recovery Team, who will screen permits to ensure that any impacts on listed species are acceptable. For white sturgeon the contact is Steve McAdam ([steve.mcadam@gov.bc.ca](mailto:steve.mcadam@gov.bc.ca)). For listed non-game freshwater fish the contact is Jordan Rosenfeld ([jordan.rosenfeld@gov.bc.ca](mailto:jordan.rosenfeld@gov.bc.ca)), co-chair of the Non-Game Freshwater Fish Recovery Team.

### Table 2 – Species Names and Codes

Common name	Scientific Name	Code	Common name	Scientific Name	Code
American Shad	<i>Alosa sapidissima</i>	SH	Mottled Sculpin	<i>Cottus bairdi</i>	CBA
