

APPENDICES

Appendix 1. Cariboo Forest Region: Identified Wildlife by forest district

The following tables indicate the ecosections within which Identified Wildlife occur. Ecosections are the smallest units in the regional ecological classification system developed by the Ministry of Environment, Lands and Parks. Ecosections represent areas with minor physiographic and climatic variation. A map of the ecosections in each forest district is provided.

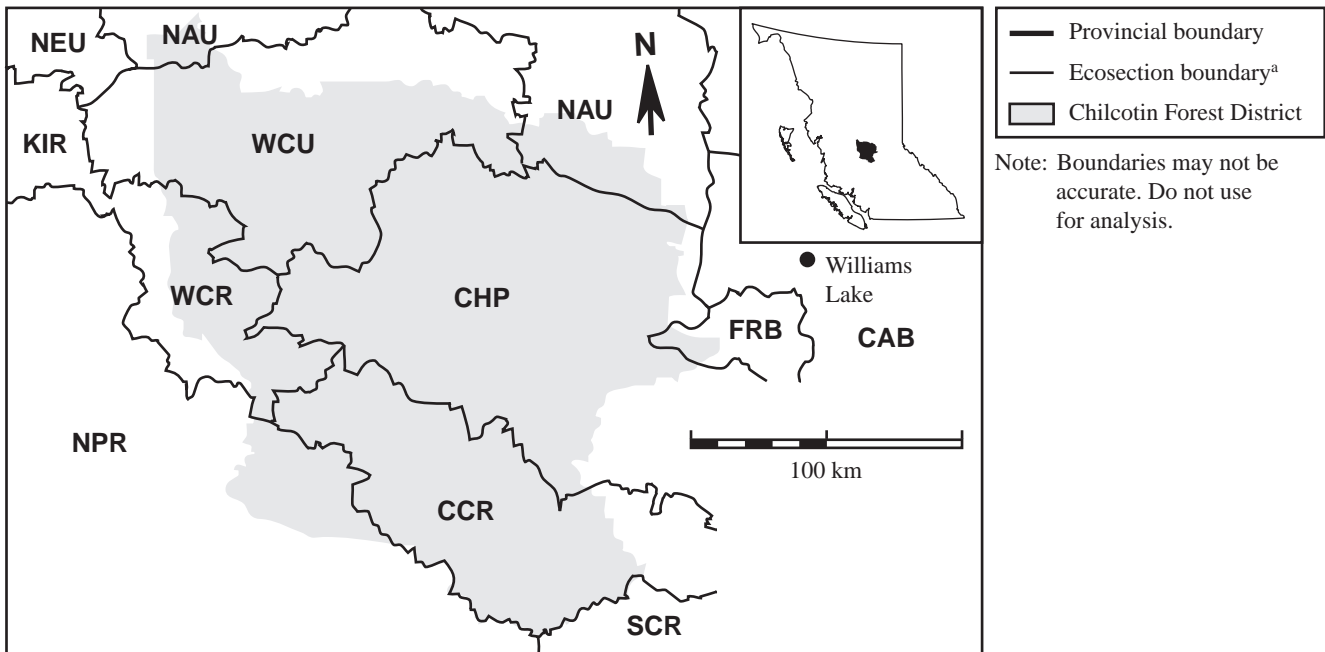

Demarchi, D.A. 1996. Ecoregions of British Columbia – fourth approximation. Ministry of Environment, Lands and Parks, Wildlife Branch, Victoria, B.C.

Code	Ecosections
BOV	Bowron Valley
CAB	Cariboo Basin
