TEI Data Distribution Packages Metadata and Status:

The Data Distribution packages in this folder contain of the full TEI dataset split into Predictive Ecosystem Mapping (PEM) data and non-PEM data which includes Terrestrial Ecosystem Mapping (TEM), Terrain Mapping (TER), Bioterrain Mapping (TBT), Terrain Stability Mapping (TSM), Sensitive Ecosystems Inventory (SEI), Soil Mapping (SOIL, project boundaries only), and Wildlife Habitat Ratings (WHR, project boundaries only) by Natural Resource Sector Region (see Index map.pdf). Data includes the Project_Boundaries, Short_Table, Long_Table, On-site Symbol and Sample Site feature classes, and any user-defined tables.

- The NonPEM data packages are version 10 published on <u>November 14, 2023</u>.
- The data in the NonPEM data packages reflects projects loaded up to <u>November 14, 2023</u>.
- The data in the PEM data packages reflects projects loaded up to <u>November 14, 2023</u>.

Check back periodically as the TEI Unit will publish new versions of the dataset as we load batches of new projects.

Please note, the TEI Unit makes every effort to ensure published data are up-to-date. However, there may be complete, but unpublished projects that can be provided upon request to TEI_mail@gov.bc.ca

See the TEISDataDictionary.gdb.zip file for descriptions of the tables and domain tables defining codes. For a list of allowable codes for new mapping projects, please see the TEI Contractor Package and ecosystem codes list:

- https://www.env.gov.bc.ca/esd/distdata/ecosystems/TEI/Docs/TEI_EcosystemCodes.xlsx

Additionally search for project reports, metadata and extended legends for each project on Ecocat (https://www2.gov.bc.ca/gov/content/environment/research-monitoring-reporting/libraries-publication-catalogues/ecocat) or request these documents (by providing a list of project BAPIDs of interest) from TEI_Mail@gov.bc.ca

Note, Soil project boundaries and the soil datasets for BC are available from:
