

Province of British Columbia

Water Act

CONDITIONAL WATER LICENCE

The owners of the land to which this licence is appurtenant is/are hereby authorized to divert and use water as follows:

- a) The stream on which the rights are granted is McFayden Creek.
- b) The point of diversion is located as shown on the attached plan.
- c) The date from which this licence shall have precedence is June 8, 1992.
- d) The purpose for which this licence is issued is domestic.
- e) The maximum quantity of water which may be diverted for domestic purpose is 1.137 cubic metres per day.
- f) The period of the year during which the water may be used is the whole year
- g) The land upon which the water is to be used and to which this licence is appurtenant is Lot 5, District Lot 8126, Kootenay District, Plan 1533, except part included in Plan NEP23144
- h) The authorized works are a screened intake, division tank and pipe which shall be located approximately as shown on the attached plan.
- i) The construction of the said works shall be completed and the water shall be beneficially used prior to December 31, 2018. Thereafter, the licensee shall continue to make regular beneficial use of the water in the manner authorized herein.
- j) This licence is issued under the Water Act (the Act). The exercise of rights under the licence is subject to the Act and its regulations, the terms and conditions of the licence, orders under the Act and the rights of licensees whose rights have precedence on the stream. The licensee must comply with all such requirements, as well as the provisions of all other applicable enactments. In exercising rights under the licence, the licensee must exercise reasonable care to avoid damaging land, works, trees or other property, and must make full compensation to the owners for damage or loss resulting from construction, maintenance, use, operation or failure of the works.

- k) This licence authorizes the use of water for domestic purpose in one dwelling located approximately as shown on the attached plan.
- l) All water diverted must pass through a division tank constructed to specifications set by an Engineer under the Water Act and maintained by the licensee.
