

Province of British Columbia

Water Act

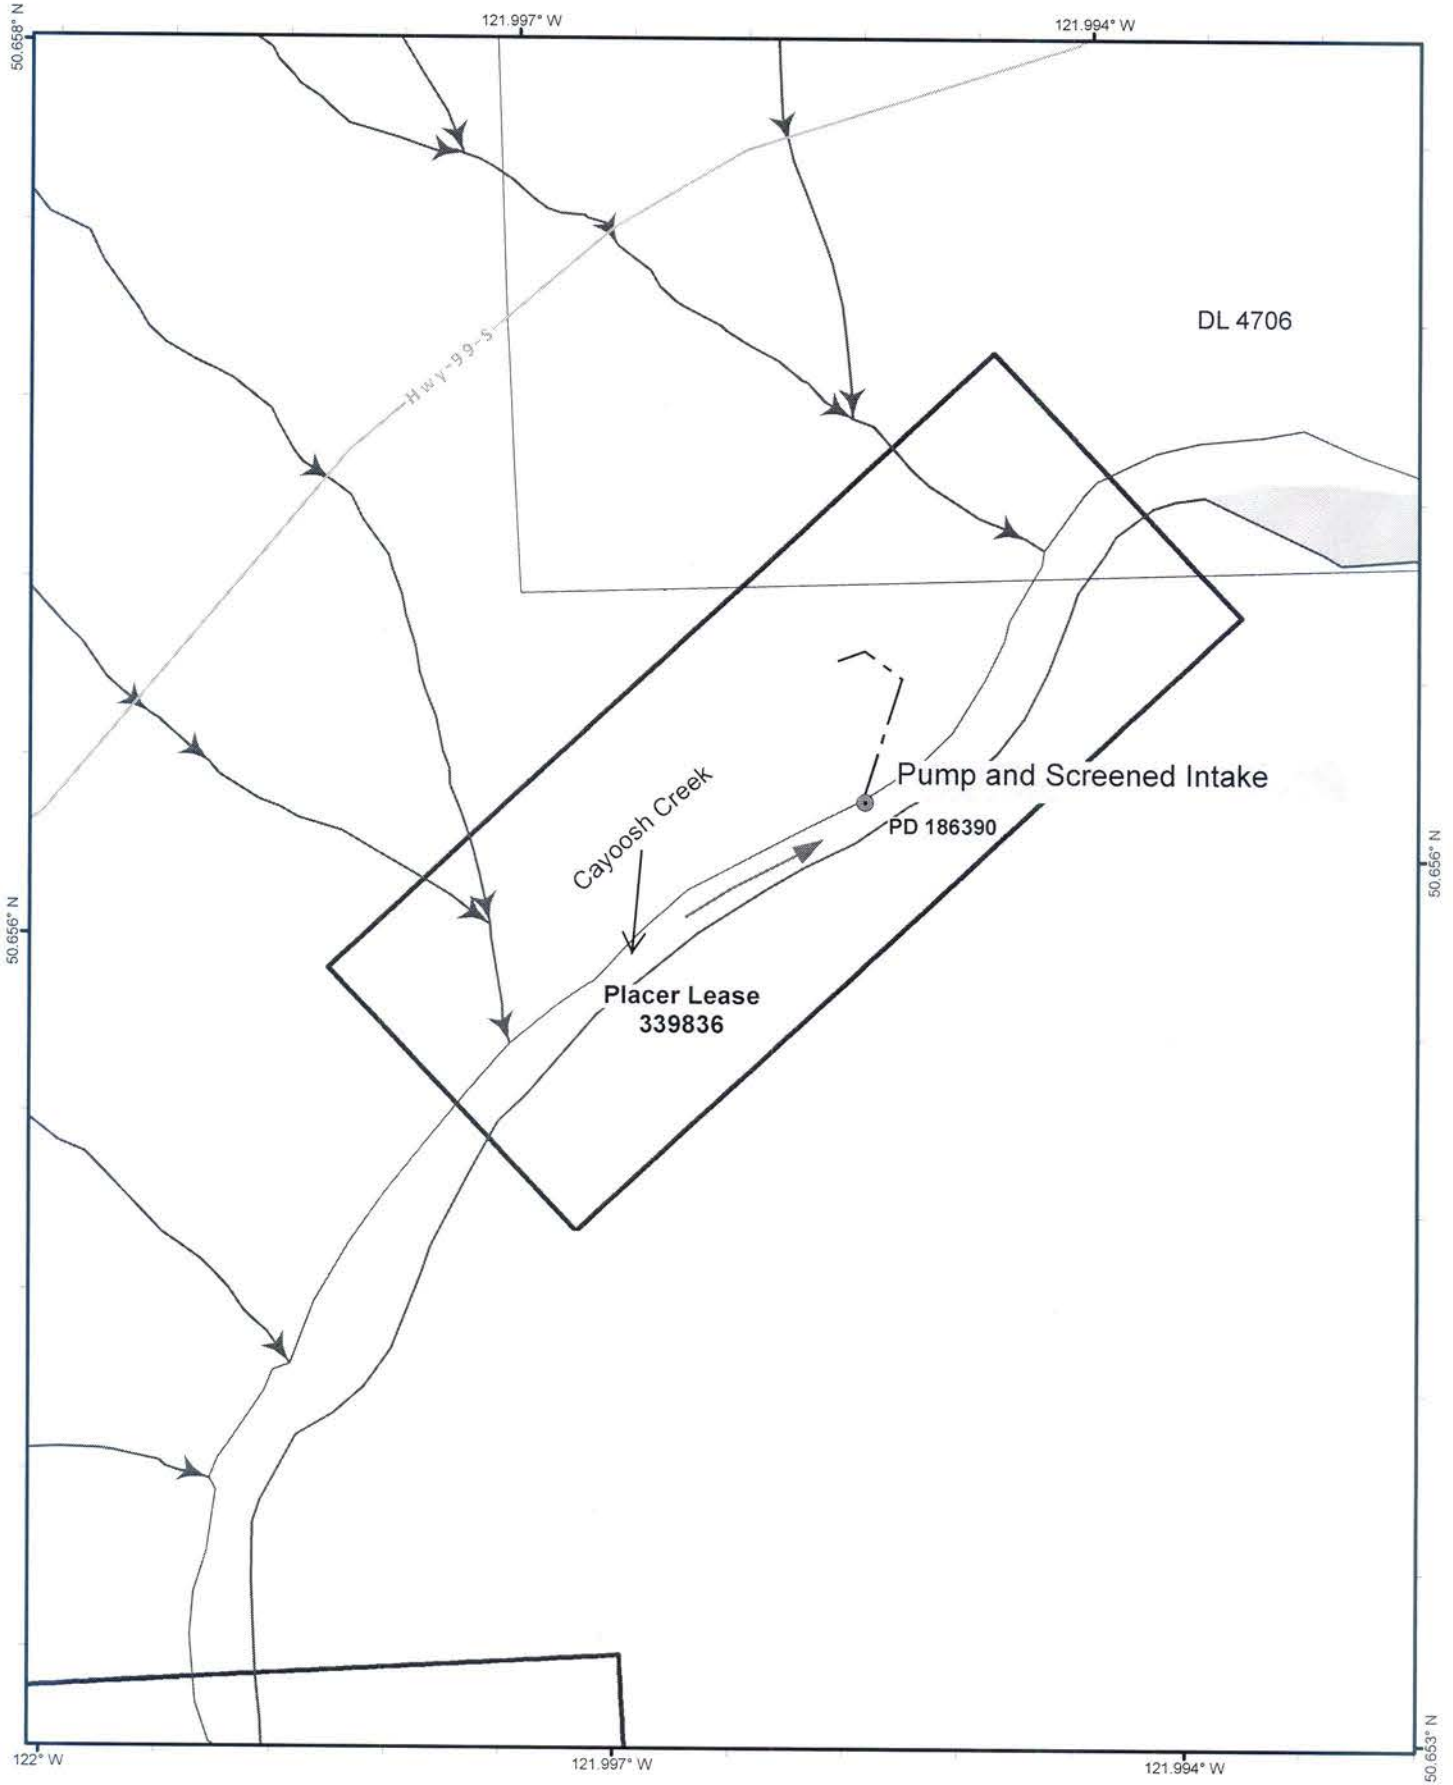

CONDITIONAL WATER LICENCE

The holder of Placer Tenure #339836 to which this licence is appurtenant is hereby authorized to divert and use water as follows:

- a) The stream on which the rights are granted is Cayoosh Creek.
- b) The point of diversion is located as shown on the attached plan.
- c) The date from which this licence shall have precedence is March 28, 2014.
- d) The purpose for which this licence is issued is placer mining.
- e) The maximum quantity of water which may be diverted for placer mining is 302.4 cubic metres per day at a rate not to exceed 0.014 cubic metres per second.
- f) The period of the year during which the water may be used is April 1 to October 31.
- g) The land upon which the water is to be used and to which this licence is appurtenant is Placer Tenure #339836.
- h) The authorized works are a diversion structure, screened intake, pump, flow measuring device, pipe, wash plant and settling pond which shall be located approximately as shown on the attached plan.
- i) The construction of the said works shall be completed and the water shall be beneficially used prior to December 31, 2018. Thereafter, the licensee shall continue to make regular beneficial use of the water in the manner authorized herein.
- j) This licence is issued under the *Water Act* (the Act). The exercise of rights under the licence is subject to the Act and its regulations, the terms and conditions of the licence, orders under the Act and the rights of licensees whose rights have precedence on the stream. The licensee must comply with all such requirements, as well as the provisions of all other applicable enactments. In exercising rights under the licence, the licensee must exercise reasonable care to avoid damaging land, works, trees or other property, and must make full compensation to the owners for damage or loss resulting from construction, maintenance, use, operation or failure of the works.

- k) The works authorized under clause (h) hereof shall be constructed and used in accordance with the approved Notice of Work. Any changes to the authorized works must be approved prior to their completion
- l) All waste water from the mining operation must be ponded to remove suspended solids before being returned to the stream.
- m) All mined or otherwise disturbed ground surfaces including cut banks and fill slopes shall be stabilized to prevent tailings, forest cover, top soil and debris from entering into water courses.
- n) The diversion of water authorized under this licence may be restricted or prohibited at any time by an Order in writing of an Engineer under the *Water Act*, in order to maintain a minimum flow in the stream for the preservation of fish and other aquatic life.
- o) The licensee shall install a flow measuring device to the satisfaction of an Engineer under the *Water Act*.
- p) The licensee shall retain flow meter records for inspection upon request by an Engineer under the *Water Act*.
- q) Water may only be used for placer mining purposes so long as mines Permit P-3-121 is in good standing. You may apply to the Comptroller of Water Rights or the Assistant Regional Water Manager in accordance with the provisions of the *Water Act* to amend this licence to incorporate the terms and conditions of subsequent mines permits.
- r) This licence terminates on December 31, 2024. Prior to the termination date, the licensee may apply to the Comptroller of Water Rights or the Assistant Regional Water Manager in accordance with the provisions of the *Water Act* to amend this licence to extend the term.

Peter Stroes R.P.F.
Assistant Regional Water Manager

Scale: 1:2,500
