

Province of British Columbia

Water Act

CONDITIONAL WATER LICENCE

The holder of a lease held under Crown Lands file 2410244 to which this licence is appurtenant is hereby authorized to divert and use water as follows:

- a) The stream on which the rights are granted is Montrose Creek.
- b) The point of diversion is located as shown on the attached plan.
- c) The date from which this licence shall have precedence is June 20, 2014.
- d) The purpose for which this licence is issued is Industrial (Work Camp).
- e) The maximum quantity of water which may be diverted for Industrial (Work Camp) is 4.546 cubic metres (1000 gallons) per day, subject to the following:

The licensee shall maintain in Montrose Creek, measured immediately downstream of the point of diversion:

- 1. A minimum flow of 0.52 cubic metres per second; or
 - 2. A minimum flow as ordered under clause (k) by the Engineer under the *Water Act* ("the Engineer").
- f) The period of the year during which the water may be used is the whole year.
 - g) The land upon which the water is to be used and to which the licence is appurtenant is the land on which the powerhouse of the Montrose Creek Generating System is situated, described as that parcel or tract of land within District Lot 2535, Range 1, Coast District, held under Land File 2410244.
 - h) The authorized works are screened intake, pipe, pump, water tanker truck and tank which shall be located approximately as shown on the attached plan.
 - i) The construction of the said works has been completed and the water is being used. The licensee shall continue to make regular beneficial use of the water in a manner authorized herein.

- k) This licence must operate the works under clause (h) above in accordance with procedures ordered by the Engineer, including any order for the regulation of the diversion, rate of diversion and use of water as may be required for the preservation of fish and other aquatic life.
