

Province of British Columbia

Water Act

CONDITIONAL WATER LICENCE

The holders of a Crown Land Tenure within Land Act File 0093099 covering the land to which this licence is appurtenant is hereby authorized to divert and use water as follows:

- a) The stream on which the rights are granted is Brassy Spring.
- b) The point of diversion is located as shown on the attached plan.
- c) The date from which this licence shall have precedence is July 15, 2015.
- d) The purpose for which this licence is issued is industrial stockwatering.
- e) The maximum quantity of water which may be diverted for industrial stockwatering is 32 cubic metres a day.
- f) The period of the year during which the water may be used is the whole year.
- g) The land upon which the water is to be used and to which this licence is appurtenant is the stockwatering project of the licensee within section 31, township 20, range 22 held under Land File 0093099.
- h) The authorized works are a pipe, screened intake and trough which shall be located approximately as shown on the attached plan.
- i) The construction of the said works has been completed and the water is being used. The licensee shall continue to make regular beneficial use of the water in a manner authorized herein.
- j) This licence is issued under the Water Act (the Act). The exercise of rights under the licence is subject to the Act and its regulations, the terms and conditions of the licence, orders under the Act and the rights of licensees whose rights have precedence on the stream. The licensee must comply with all such requirements, as well as the provisions of all other applicable enactments. In exercising rights under the licence, the licensee must exercise reasonable care to avoid damaging land, works, trees or other property, and must make full compensation to the owners for damage or loss resulting from construction, maintenance, use, operation or failure of the works.

- k) The industrial stockwatering purpose authorized by this licence is for use outside the wetted perimeter of the source in a trough located approximately as shown on the attached plan.

A handwritten signature in black ink, appearing to read 'Rick Sommer', followed by a horizontal line extending to the right.
