

Province of British Columbia

Water Act

CONDITIONAL WATER LICENCE

The holder of a Crown Land Tenure within Land Act File 0093099 covering the land to which this licence is appurtenant is hereby authorized to divert and use water as follows:

- a) The stream on which the rights are granted is Barnes Creek.
- b) The point of diversion is located as shown on the attached plan.
- c) The date from which this licence shall have precedence is December 18th 1967.
- d) The purpose for which this licence is issued is industrial stockwatering.
- e) The maximum quantity of water which may be diverted industrial stockwatering is 4322 cubic metres per annum.
- f) The period of the year during which the water may be used is October 1st to June 30th.
- g) The land upon which the water is to be used and to which this licence is appurtenant is the stockwatering project of the licensee within sections 29, 30, and 32, township 20, range 23, W6M, KDYD held under Land File 0093909.
- h) The authorized works are a diversion structure, screened intake, pump, pipeline, transmission line troughs and storage tanks which shall be located approximately as shown on the attached plan.
- i) The construction of the said works has been completed and the water is being used. The licensee shall continue to make regular beneficial use of the water in a manner authorized herein.
- j) This licence is issued under the Water Act (the Act). The exercise of rights under the licence is subject to the Act and its regulations, the terms and conditions of the licence, orders under the Act and the rights of licensees whose rights have precedence on the stream. The licensee must comply with all such requirements, as well as the provisions of all other applicable enactments. In exercising rights under the licence, the licensee must exercise reasonable care to avoid damaging land, works, trees or other property, and must make full compensation to the owners for damage or loss resulting from construction, maintenance, use, operation or failure of the works.

- k) The licensee shall install a flow measuring device to the satisfaction of an Engineer under the Water Act.
