Water Sustainability Act

CONDITIONAL WATER LICENCE

The holder of a Crown lease held under Crown Lands File No. 6403036 to which this licence is appurtenant is hereby authorized to divert, use, and store water as follows:

- a) The stream on which the rights are granted is Moresby Creek and storage is in a reservoir being Moresby Lake.
- b) The points of diversion and re-diversion, and reservoir are located as shown on the attached plan.
- c) The date from which this licence shall have precedence is July 18, 1986.
- d) The purposes for which this licence is issued are storage (power) and power (general). The power is to be generated with the Sandspit Generating Station.
- e) The maximum quantity of water which may be diverted and held in storage is 19,982,376 cubic metres per year, and the maximum quantity of stored water which may be used for power (general) purpose is 8.49504 cubic metres per second, subject to the water being available from storage.
- f) The period of the year during which water may be diverted into storage is the whole year, and the period of year during which the stored water may be used for power (general) purpose is the whole year.
- g) The land upon which the water is to be used and to which this licence is appurtenant is the land on which the powerhouse of the Sandspit Generating Station is situated, described as District Lot 3052, Queen Charlotte District, leased under the *Land Act*, held under Lands File No. 6406036.
- h) The works authorized for the Sandspit Generating Station are dam, access road, and saddle dams (as held under Lands File No. 1414355), reservoir, intake, tunnel, penstock, powerhouse, tailrace, and access road (as held under Lands File No. 6403036), access road (as held under Lands File 1413551), and transmission line from powerhouse to the BC Hydro Power Grid (as held under Lands File No. 6403037), all of which shall be located approximately as shown on the attached plan.
- i) The construction of the said works shall be completed and the water shall be beneficially used prior to December 31, 2019. Thereafter, the licensee shall continue to make regular beneficial use of the water in the manner authorized herein.

- j) The existing dam and new saddle dams authorized under clause (h) are subject to the Dam Safety Regulation, and shall be maintained and operated as per this regulation.
- k) As-Built drawings or an equivalent must be submitted to the Ministry of Forests, Lands, and Natural Resource Operations within one year of commissioning.
- l) This licence will remain valid only so long as a valid lease exists for the land described in clause (g) herein, or the licensee acquires ownership of the said land.
- m) This licence is issued in substitution of Conditional Water Licence Number C067528.
