Water Sustainability Act

CONDITIONAL WATER LICENCE

The holder(s) of the placer claims held under the *Mineral Tenure Act* to which this licence is appurtenant is/are hereby authorized to divert and use water as follows:

- a) The stream on which the rights are granted is Snake Creek.
- b) The point of diversion is located as shown on the attached plan.
- c) The date from which this licence shall have precedence is January 19, 2016.
- d) The purpose for which this licence is issued is mining (placer).
- e) The maximum quantity of water which may be diverted for placer mining purposes is 0.03 cubic metres per second.
- f) The period of the year during which the water may be used is May 1 to September 30.
- g) The land upon which the water is to be used and to which this licence is appurtenant is the placer mining project of the licensee located within Placer Claims 551018, 613536 and 1016708 Atlin Mining Division as shown on the attached plan.
- h) The authorized works are screened intake, pumps, pipes, reservoir, wash plant, and settling pond which shall be located approximately as shown on the attached plan.
- i) The construction of the said works has been completed and the water is being beneficially used. The licensee shall continue to make regular beneficial use of the water in a manner authorized herein.
- j) The works authorized under clause (h) hereof shall be maintained to the satisfaction of a Water Manager under the *Water Sustainability Act*.
- k) The diversion of water authorized under this licence may be restricted or prohibited at any time by an order in writing in order to maintain a minimum flow in the stream or to ensure compliance with the conditions of this licence.

- l) All water management practices employed on the mine site (erosion and sediment control within mined areas, construction and operation of settling ponds, stream crossing structures, riparian setback requirements, diversion channel construction, etc.) shall be in accordance with the Best Management Practices outlined within Chapters 5 and 7 of the Atlin Placer Mining Best Management Practices Guidebook (2014).

- m) Water may only be used for placer mining purposes so long as mines Permit No. P-1-766 is in good standing. Prior to the termination date of said permit, you may apply to the Comptroller of Water Rights or a Water Manager in accordance with the provisions of the *Water Sustainability Act* to amend this licence to incorporate the terms and conditions of subsequent mines permits.
