

WATER PROTECTION ACT

Report for an unlicensed registration

The following are the findings of the Comptroller of Water Rights pursuant to Section 14 of the Water Protection Act:

1. Registrant:

Monashee Spring Water Ltd.
P O Box 100
Valemount, BC V0E 2Z0

2. Location of Well and Associated Works

- The 6 inch diameter well, reportedly drilled in 1969, is situated on Lot 1 of District Lot 5708, Cariboo District, Plan PGP37799, owned by the registrant under Certificate of Title PJ6229, in the vicinity of Valemount, BC.
- A 2 inch PVC pipeline conveys water to a bottling and tanker truck loading facility on the said Lot 1.
- The approximate location of the works associated with this registration is demonstrated on the attached sketch.
- Water is removed from British Columbia in bulk in tanker trucks via Highway 16 at the BC/Alberta border.

3. Appurtenancy of Registration

- This registration is appurtenant to Lot 1 of District Lot 5708, Cariboo District, Plan PGP37799.

4. Annual Volume

- The registrant has been incorporated and in operation since 1990.
- The highest volume of water taken from the well in any consecutive 12 month period during the period from June 1, 1992 to May 31, 1995 is 2,226,050 gallons.

5. Registration

- With the issue of this report, the registrant is hereby registered under Section 12 of the Water Protection Act and assigned registration no. 8.

Dated at Victoria, BC this 29th day of January, 1997.

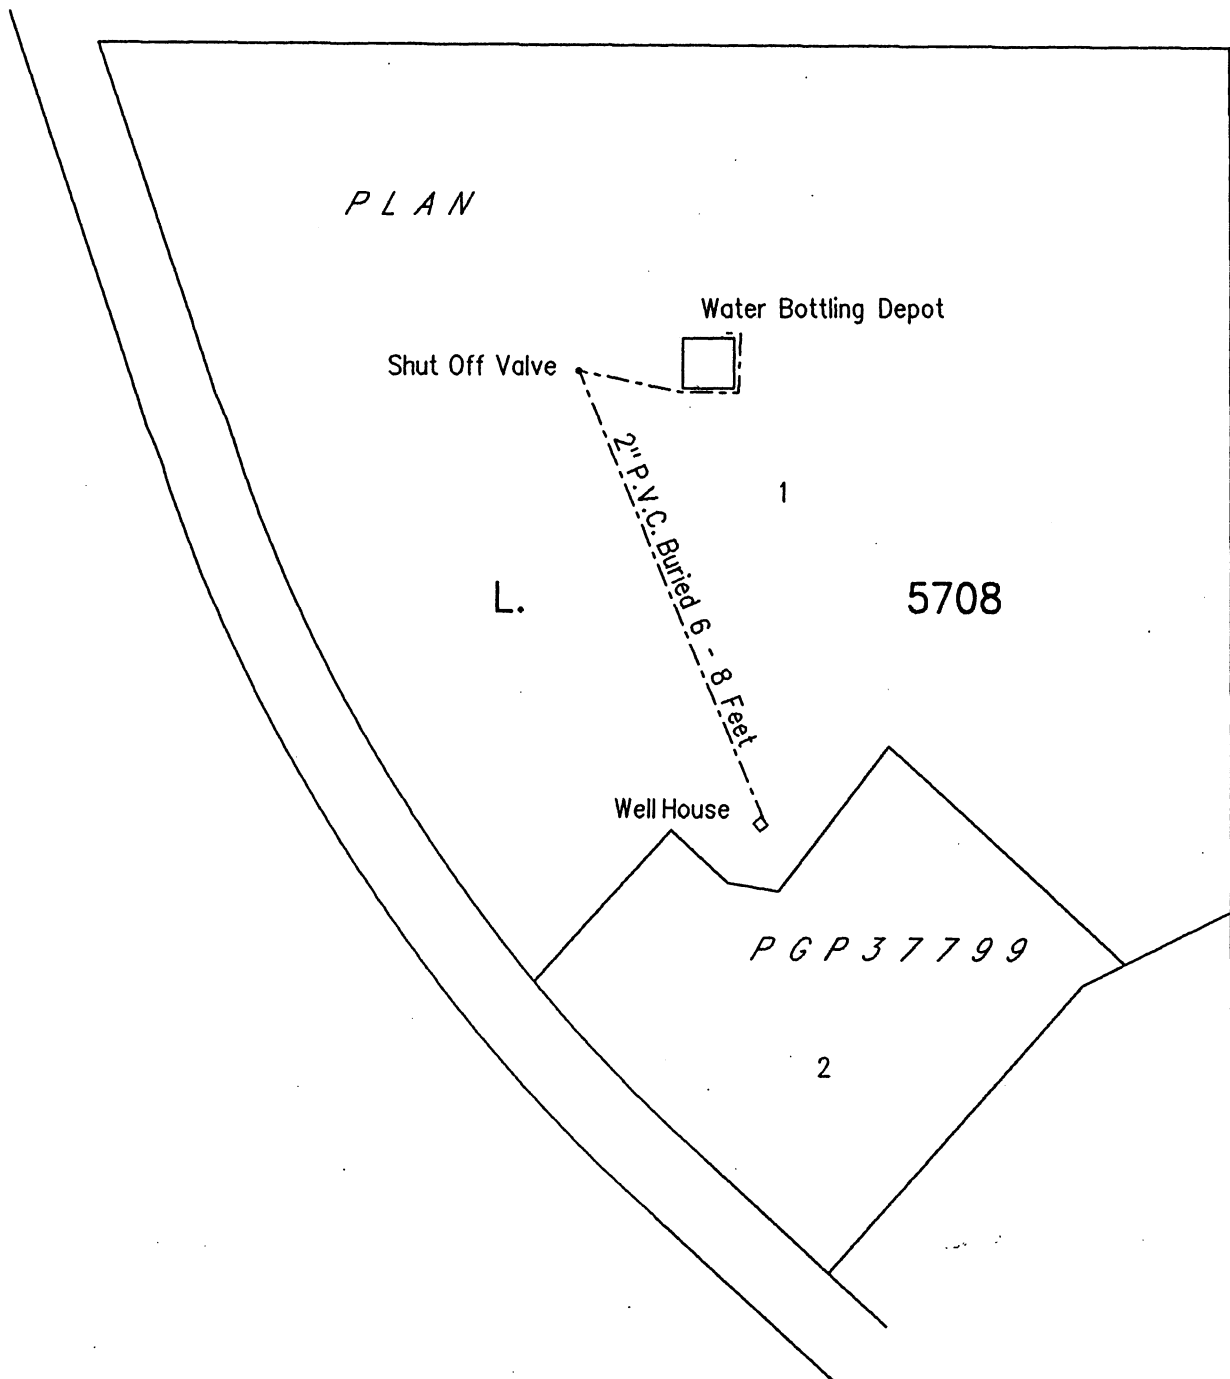

J. E. Farrell,
Comptroller of Water Rights

Office of Comptroller of Water Rights

Water Protection Act
